

ЗАКЛЮЧЕНИЕ

О результатах общественных обсуждений по проекту: «Организация зон санитарной охраны проектируемых водозаборных скважин № 1п, 2п, 3п в ст. Елизаветинской в г. Краснодаре».

г. Краснодар

«01» марта 2023 г.

Во исполнении требований федерального закона от 30.03.1999 №52-ФЗ «О санитарно-эпидемиологическом благополучии населения», приказа министерства природных ресурсов Краснодарского края 25.02.2015 № 203 «Об утверждении Административного регламента предоставления министерством природных ресурсов Краснодарского края государственной услуги по утверждению проектов зон санитарной охраны водных объектов, используемых для питьевого и хозяйственно-бытового водоснабжения, и установлению границ и режимов зон санитарной охраны источников питьевого и хозяйственно-бытового водоснабжения», п. 3.2.2 СанПиН 2.1.4.1110-02 «Зоны санитарной охраны источников водоснабжения и водопроводов питьевого назначения», предусматривающего согласование границ установления зон санитарной охраны проектируемых водозаборных скважин с лицами, являющихся правообладателями земельных участков, права которых могут быть ограничены, с 30 декабря 2022 по 20 февраля 2023 проведены общественные обсуждения.

Организатором общественных обсуждений по проекту «Организация зон санитарной охраны проектируемых водозаборных скважин № 1п, 2п, 3п в ст. Елизаветинской в г. Краснодаре», является: ООО «Водоканал Юг», ИНН 2311303033, ОГРН 1202300015136, юр. адрес: 350087, Краснодарский край, г. Краснодар, ул. им. Петра Метальникова, д. 42, офис 124, в лице заместителя директора – Т.И.Тимофеевой.

Тема, вынесенная на общественные обсуждения: согласование границ установления 3 пояса зоны санитарной охраны водозаборных скважин № 1п, 2п, 3п по проекту «Организация зон санитарной охраны проектируемых водозаборных скважин № 1п, 2п, 3п в ст. Елизаветинской в г. Краснодаре» с лицами, являющимися правообладателями земельных участков, права которых могут быть ограничены.

На рассмотрение вынесен проект: «Организация зон санитарной охраны проектируемых водозаборных скважин № 1п, 2п, 3п в ст. Елизаветинской в г. Краснодаре» с перечнем водоохраных и санитарных мероприятий, предусмотренных в зонах санитарной охраны с целью охраны подземных вод от загрязнения, разработанный ООО «Водоканал Юг» (ИНН 2311303033), определяющий меры защиты источника воды в месте водозабора от химического и бактериологического загрязнения.

В целях ознакомления населения с правилами и режимами хозяйственного использования территорий, входящих в III пояс зоны санитарной охраны (далее – ЗСО) проектируемых водозаборных скважин осуществлена публикация в официальных источниках средств массовой информации на территории муниципального образования город Краснодар:

30 декабря 2022 года - в газете «Краснодарские известия» № 149 (прилагается). Публикация содержит перечень земельных участков, попадающих в III пояс ЗСО, а также перечень мероприятий по организации зон санитарной охраны проектируемых водозаборных скважин № 1п, 2п, 3п в ст. Елизаветинской в г. Краснодаре;

20 января 2023 года информация для населения по проекту организации зон санитарной охраны проектируемых водозаборных скважин № 1п, 2п, 3п в ст. Елизаветинской в г. Краснодаре опубликована на официальном сайте администрации Краснодара – <https://krd.ru/eto-vazhno/informatsiya-dlya-naseleniya-po-proektu-organizatsii-zon-sanitarnoy-okhrany-proektiruemykh-vodozabor/>.

В оповещении указаны кадастровые номера земельных участков, попадающих в зоны санитарной охраны источника водоснабжения третьего пояса, сведения о том, где

участники общественных обсуждений могут ознакомиться с проектом и информационными материалами к нему, а также способы внесения предложений и возражений по данному вопросу в течение 30 дней с момента опубликования данного объявления.

В период проведения указанных мероприятий (с 30 декабря 2022 по 20.02.2023) предложения и замечания от правообладателей земельных участков (согласно перечню земельных участков) в адрес организатора общественных обсуждений, по указанному в публикациях адресу (350073, Краснодарский край, город Краснодар, ул. им. Кирилла Россинского, 59А, строение 7, кабинет 1), не поступали.

В результате проведенных мероприятий граждане, чьи земельные участки входят в границы установления зон санитарной охраны, проинформированы о необходимости принимать меры по предотвращению загрязнения, засорения подземных водных объектов и истощения вод, а также соблюдать установленные нормативы допустимого воздействия на подземные водные объекты при оказании негативного воздействия на состояние подземных водных объектов.

Установление планируемых мероприятий по улучшению санитарного состояния территории зон санитарной охраны и предупреждению загрязнения источников водоснабжения (водозаборных скважин № 1п, 2п, 3п), в границах 3 пояса зоны санитарной охраны указанного водозабора, не создаёт дополнительных ограничений в хозяйственном использовании земельных участков их правообладателям.

С учётом вышеизложенного, в связи с отсутствием возражений от правообладателей земельных участков, входящих в границы 3 пояса, зоны санитарной охраны водозаборных скважин № 1п, 2п, 3п по проекту «Организация зон санитарной охраны проектируемых водозаборных скважин № 1п, 2п, 3п в ст. Елизаветинской в г. Краснодаре» считать согласованными.
